SUMMARY

Final year UX design student focused on automotive HMI and enterprise tools, looking for a graduation project internship. Currently interning at Tata Motors. My research on Level 3 takeover was mentored by engineers at Valeo and Renault.

EXPERIENCE

Tata Motors Limited, Digital Product Development System (DPDS)

Jul 2026 to Present

UX Design Intern

- Redesigning the team's internal ticketing system (TMS). Audited its navigation and information architecture, sat in with staff filing real tickets, and benchmarked it against industry standard service desk tools.
- Moved the design from a single ticket form to a conversational assistant that offers a knowledge base answer first and pre fills a ticket only when needed.
- Built the design system from Tata Motors' brand guidelines: token architecture, core and assistant components, and a WCAG AA contrast audit.
- Designing Agile Wheels, an internal developer platform, mapping role based flows for developers, QA engineers, product owners and DevSecOps engineers.

MBITS Innovations Pvt. Ltd.

Jun 2025 to Sep 2025

UX Design Intern

- Audited and rebuilt the information architecture of WelNest, an AI wellness app.
- Benchmarked healthcare and wellness apps to ground design decisions in current industry patterns.
- Designed the core flows in Figma: onboarding, chatbot, assessment summaries and personalised dashboards.
- Worked with developers through handoff. The app is now in development.

Brahmanda Educational Foundation

Jun 2025 to Jul 2025

Academic Research Intern

- Researched how cognitive load and information hierarchy affect driver interaction.
- Interviewed 20+ drivers aged 18 to 68 about infotainment frustrations and voice assistant use.
- Analysed how voice assistance and predictive suggestions fit into infotainment flows.
- Delivered user journey maps and early interaction concepts.

Toniztoz

May 2025 to Jun 2025

UX Design Intern

- Designed user flows and wireframes for Affecio, a video based dating app for Gen Z, covering discovery, matching and video interaction.
- Scoped designs around technical constraints, working directly with the development team.

EDUCATION

Bachelor of Design, User Experience Design

2023 to Present

MIT Institute of Design, Pune • CGPA 8.57

Semester Abroad Programme, Digital Arts and Design

Feb to May 2026

École Supérieure d'Art et de Design d'Orléans (ESAD), France

Internet art, 3D in Blender and gamified websites. Research project *Designing the Return*, an HMI for Level 3 takeover, mentored by engineers at Valeo and Renault.

RESEARCH

Curating Finstas, India HCI 2025, final review round

2025

First author. Researched how young people in urban India curate private Instagram spaces, from semi structured interviews and thematic analysis.

SKILLS

Design	Interaction Design, Information Architecture, Wireframing & Prototyping, Design Systems, Visual/Graphic Design, User Flows, UI Graphics, Branding
Research	User Research & Interviews, Usability Testing, Contextual Inquiry, Heuristic Evaluation, Journey Mapping, Competitive Analysis, Thematic Analysis
Tools	Figma, Framer, Adobe Photoshop, Illustrator, After Effects, Android Studio, Xcode, Blender
Code	HTML, CSS, JavaScript, Python (Basic)
Languages	Hindi (Native), English (Fluent), French (A1), German (A1)
